

THE CENTRAL ASIAN CDMA FORUM (www.3gca.org)

The Central Asian CDMA Forum (CACF) is an industry forum, the main objective of which is to create awareness, encourage dialogue and promote 3G technologies and its use in the CIS, Afghanistan and Pakistan region for telecom operators, broadcasters, manufacturers, software companies, government, academia and the general public. By joining the CACF your company will become an integral part of Central Asian region's 3G wireless community. Your company will play a vital role in shaping the future of the regions leading wireless technology, sharing the knowledge and expertise of some of the leading operators and pioneering organizations that are at the cutting edge of latest industry breakthroughs. The CACF is affiliated with other 3G development organizations and your membership of the CACF brings with it all the benefits of these austere and influential associations.

Main membership benefits include:

- As a member of the CACF you will also have access to our members-only web pages. This valuable knowledge source on all topics related to the CDMA & WCDMA family of wireless communications.
- Get 3G regional events listings and invitation to participate in region wide conferences and workshops well attended by industry experts and decision makers.
- Promote and ensure more visibility of your organization and its product and services through free space on CACF web site.
- Assistance in Network Planning, Equipment Selection, Installations, Network Optimization and other network development programmes.
- Find those engineers and managers you desperately need to build, optimize and run your network.
- Access to low cost equipment operators, collective bargaining groups of operators and other selling opportunities such as the GHRC
- Assistance with equipment and service certification.
- Business and Project Management assistance.
